DOING GOOD IN THE COMMUNITY

Thursday, September 10th at 10am we are hosting our next blood drive at the station.

Sign up online at www.redcrossblood.org.
RESPOND TO THE CALL.
DONATE YOUR BLOOD.
BE A HOMETOWN HERO.

Checking inside the Bubble, MGM Grand's boxing community. Community Ambulance was instrumental in assisting with Top Ranks sports bubble.

Support Services

I hope that this month finds everyone healthy. We are committed to do everything that we can to keep our staff and our patients safe during the ongoing pandemic. As we continue to highlight the departments of Community Ambulance, our next valuable team is our team in Support Services.

Support Services at Community Ambulance have the responsibility to assure that each ambulance is clean, disinfected and stocked so that the EMS staff at Community Ambulance can go out and provide ambulance transportation as an essential service. Our Support Services teams work 24 hours a day keeping our ambulances ready for the day ahead.

With the disinfecting of each ambulance prior to being placed in service, the Support Services staff take pride in ensuring that each ambulance has been disinfected using the approved CDC methods and are not only deep cleaned daily, but, we also use a Ultra Violet -C light system on each ambulance weekly to further assure that each ambulance is properly disinfected after being stocked prior to it being placed in service for the EMS staff to use.

Support Services maintains a warehouse with all of the state-of-the-art equipment and disposable items needed to keep a fully stocked ambulance available at all times.

Many of our support services personnel go on to get certified as emergency medical technicians.

We are very appreciative of your business and look forward to our continued partnership in providing the best possible service to those who need us the most.
